Two spirits joined, and a soul was born  
Ten thousand years ago  
Between the Swan and Hercules  
Where even dark clouds glow  
To live with grace, to ride the swell  
To yet be strong of will  
To love the wind, to learn it's song  
An empty space to fill

(Chorus)

Apollo taught me to rhyme  
Orpheus taught me to play  
Andromeda cast down her sign  
And Vega lights my way

Smoke rings in a galaxy  
An endless flight through time  
Lyra gave her heart to him  
And left him free to climb  
A winter's journey from the Moon  
To reach the summer sun  
To rise again, to sing for you  
A song that's yet unsung

Chorus

Two spirits joined, and a soul was born  
Ten thousand years ago  
Between the Swan, and Hercules  
Where even dark clouds glow  
To live with grace to ride the swell  
To yet be strong of will  
To love the wind, to learn her song  
An empty space to fill
