She knows every little way
To get the thing that she wants
My heart is an oven
And she's pushing the buttons right now, right now

She's gonna kill me with a stare
And I'm very aware that no matter what I say
She's just walking away right now
But I'll be ready when she calls

I'm in love with this girl and it's got my head electrified
And I hope that someday she might go too far, go too far
'Cause all I can think about is me and her electrified
I hope that someday she might take me home and lose control

Start and ready is the game she plays
She knows better than to try
But I'm hoping she might wear down, wear down

Oh, just tear me apart get it stuck in the dark
I'll do what I can though she cannot stand right now
But I'll be ready when she calls

I'm in love with this girl and it's got my head electrified
I hope that someday she might go too far, go too far
'Cause all I can think about is me and her electrified
I hope that someday she might take me home and lose control

I feel it, I feel it, I feel it, I feel it, I feel it, I feel it, I feel it
Running through my bones, oh
I feel it, I feel it, I feel it, I feel it, I feel it, I feel it, I feel it
Running through my bones, my bones

I feel it, I feel it, I feel it, I feel it, I feel it, yeah
Running through my bones, oh
I feel it running through my bones, yeah

I'm in mires for you, girl
You're coursing through my mind

All I think about is you, yeah, I'm electrified

I'm in love with this girl and it's got my head electrified
I hope that someday she might go too far, go too far
'Cause all I think about is how you and I could electrify
I hope that someday you might take me home and lose
control

Hey, sometime, sometime, sometime
Say you are mine, show me sometime
Hey, sometime, sometime, sometime
Say you are mine, show me sometime

I can feel it running through my bones
Yeah, I can feel it running through my bones
