

Mute Math "Equals"

Visit "[Equals](#)" on MotoLyrics.com

Under pressure,
We get tired of learning lessons,
All the gold is how we survive,
We don't know when its goodbye

But as long as we have faith in each other
Nothing's going to stop what we started,
Nothing's gonna break what we bonded,
We can make the world spin however we want
Its all on us

The goal,
Stay above ground,
Control the nervous breakdown,
Watch your step,
Before we'll crumble,
We don't know how it all will end up

But as long as we have faith in each other
Nothing's going to stop what we started,
Nothing's gonna break what we bonded,
Ne can make the world spin however we want
Its all on us

If we got the same high that we used to trust,
The same spark in our eyes,
If we got the same love,
That used to carry us,
We can make it out alive

Nothing's going to stop what we started,
Nothing's gonna break what we bonded,
We can make the world spin however we want
Its all on us
