Transformers  
Transformers  
Transformers  
Transformers

Transformers  
More than meets the eye  
Autobots are watching over you  
Transformers  
Robots in Disguise  
Ready to die for what we love

Optimus Prime  
Bumblebee  
Ratchet  
Ironhide

Transformers  
More than meets the eye  
We need a protector to save our soul  
A hero to rise up and take control  
Transformers  
Robots in Disguise  
For the fight of mankind till it sets us apart  
We fight for our freedom we follow are heart

Transformers  
More than meets the eye  
Autobots are watching over you  
Transformers  
Robots in Disguise  
Ready to die for what we love

From a far out place in a distant world  
Comes a Army of metal will a vision of destruction  
Autobots are watching over you  
its time to take sides with the fight of our people  
A hero will rise and a villain will challenge  
Ready to die for what we love
