"Imminent War"

What is this world trying to do to me
Sometimes I gotta find a way out
Just like an animal trapped in a cage
About to explode, got to get out
Imminent war, time to see the light
Imminent war, it's me or my friend that's gonna fight
One of these things is gonna come back and kill you
You just listen to the bomber's purr
Well I think it stands for murder
Imminent war, time to see the moonlight
Imminent war, it's me or my friend that's gonna die in
the long run
You know it
Imminent war... we told you so
Imminent war, time to see the moonlight
Imminent war, it's you my friend that's gonna bite
Imminet war...
