

D I "Stand Up"

Visit "[Stand Up](#)" on MotoLyrics.com

it's the american way it's the thing to do i can take
anything i want the right to choose is always mine i'm
counting on you to stand up and strike them down i'm
counting on you, stand up... you see they walk the
streets they kill for fun but sometimes i feel i'm the only
one the only one i'm counting on you to stand up and
strike them down stand up... it's okay to die no, no!
strike force, allied weapons... i've got the new catalog,
it's got all the neat new guns we can trade 'em to you
for all kinds of stuff we'll get some weed or some feds
get some sheets and we can get some stuff we can
trade you all kinds of fire power let them fight our wars
for us so we won't see the state blow up 'cause you
really think this game's all said no, let them all do it
there so we don't have to sweat sweat
