I've been searching for
A heart that needs a heart like mine
I've been reaching for
A hand that understands
I've been waiting for
Someone that I can love that loves me
Loves me for the one that I am

Someone to hold me when I'm lonely
Someone to keep the rain away

(Chorus)
There's one in this world for everyone
One heart
One soul to walk beside you
One in this life to share your love
One touch
To touch the heart inside you

When I reach for each night
When I trust with your life
That's what I believe
You're the one
You're the one in this world for me

I've been praying that
Someone like you would rescue me
I've been hoping that
I'd find my way to you
I've been dreaming that
Somehow I'd finally find somebody
Somebody to make my dreams come true

Someone to hold me when I'm lonely
Someone to give my whole world to

(Chorus)
There's one in this world for everyone
One heart
One soul to walk beside you
One in this life to share your love

One touch
To touch the heart inside you

When I reach for each night
When I trust with your life
That's what I believe
You're the one
You're the one in this world for me

Someone to hold me when I'm lonely
Someone to tell my secrets to
Someone who's living for me only
Someone to give my whole world to

They say they say
They say they say

(Chorus)
There's one in this world for everyone
One heart
One soul to walk beside you
One in this life to share your love
One touch
To touch the heart inside you

When I reach for each night
When I trust with your life
That's what I believe
You're the one
You're the one in this world for me

You're the one
You're the one in this world for me
You're the one
