If I gave you everything baby would you give it back  
I'll give my all to you  
If I gave my heart to you baby would you give it back  
Tell me what would you do

Some nights you ain't never change  
You want sunshine and the rain  
You want everything  
You want too much from me  
Girl if I gave you everything  
My mansion and my plane and my name  
You want too much from me

The way I love you girl  
You should do the same  
Some things never change  
No more pain thank god you came girl  
I'll give you my first  
I'll give you my last  
Never gotta ask  
I'll do anything for you girl

If I gave you everything baby would you give it back  
I'll give my all to you  
If I gave my heart to you baby would you give it back  
Tell me what would you do

Some nights you ain't never change  
Think you could fix everything  
But the diamond ring  
That's not enough for me  
Boy if I gave you everything  
My mansion and my plane  
Just stay the same  
And that's enough for me yeah

The way I love you girl  
You should do the same  
Some things never change  
No more pain thank god you came girl  
I'll give you my first  
I'll give you my last

Never gotta ask

I'll do anything for you girl

If I gave you everything baby would you give it back  
I'll give my all to you  
If I gave my heart to you baby would you give it back  
Tell me what would you do

Whatever you need  
Can't even believe it  
Would you do that for me  
Close my hands I'm breathing  
And my heart is beating  
I'll give you everything

Yeah check us out  
It's easy to laugh  
Citation 10's and what not  
But what if we ain't never touched drops  
What if a nigga was on the bus stop  
All black shades black hat black fitted  
But no black car would you still be committed  
Would you still let me hit it  
Would you still ride if it was a Civic  
I'm just hoping you will stay  
On your knees and still pray  
I'm just saying what I feel babe  
So feel me in a real way

Whatever you need  
Can't even believe it  
Would you do that for me  
Close my hands I'm breathing  
And my heart is beating  
I'll give you everything  
That's what you are

If I gave you everything baby would you give it back  
I'll give my all to you  
If I gave my heart to you baby would you give it back  
Tell me what would you do
