Start:

Young lady that is not allowed  
We must make Tom & Katie proud  
Millions of years ago, the alien Xenu  
Collected all his people, and then  
He threw all around a volcano  
Bringing bombs in his machines  
And blew them all to smithereens!  
Your dad said you must wear a blanket or an opaque  
veil  
Over your faces so you will stay pale  
You must remember, it's not funny  
Stay away from where it's sunny  
Or else he'll dangle you over  
An eighty foot balcony  
Lindsay, I think I have the best thing for you:  
A Louis Vuitton chastity belt with an alcohol detector  
too  
Now I know I have a matching muzzle  
Somewhere or another, it's perfect for your big mouth  
mother

Break it down now!

Rap:

You know Hollywood is such a mess  
All the drama goin' down with celeb train wrecks  
They even stopped wearing bloomers under their dress  
It makes me feel my food come up like I got acid reflux  
... But suppress that thought for a minute  
The ones that clean their act up and then claim that  
they did it  
I'm the one who saved their asses all from being  
committed  
But of course won't admit it, cause hope they'll get  
acquitted  
The nanny, the nanny, the nanny to the stars (2x)  
Lynn Spears was my client for some time  
I took care of her girls  
Back then in Britney's crime  
But then my contract run out

She thought she'd do it herself  
And know the teen is knocked up  
And Britney signed up for self help  
I got my work on my mind  
And I ain't too hard to find  
You got the dough, I got the time  
And no, this ain't no nursery rhyme
