Penetrated by desire  
Emptied by the masters fire  
By-pass required - a burning shell  
Access denied - exit hell

Licked by the tongues of pride  
I shall forever walk inside  
Kissed by the lips of insanity  
I shall die eternally.

Turn around, face the lecher  
Close the skin and bear the anger  
Infiltrate your enemies  
Give 'em pain and luxuries.

Surround the icons, burn 'em down  
And magnetize emperor's crown  
Devour the dust of bible - lines  
Live 1000 years in suicide mines

Kingdom's painted bitter black  
Fear the serpent in your neck  
Summon the golden wine of sun  
Drink the sky when time has come
