"Roll My Heart"

Roll roll roll roll my heart
A never ending story
Roll roll roll roll my heart
Over all the seas
Roll roll roll roll me heart
Til the end comes to me

I'm the man who will know every town
Every country, every crowd
A serious business (that) i call me own
I play for you holy tunes

I carry no weapons i'm armed with dreams
Just listen if you have to know what it means
Maybe i can give you hope if you need some
A musicman is giving love to you

The drug i shot now in your brain
Is the taste of freedom, check your leader
I don't wanna see anyone in chains
Let me be your dealer
