If you have a better offer
Or if you have reservations
On the road to my house
There are so many temptations
And far be it from me
To have any expectations
But time is marching on
And I'm running out of patience

Come around, come around
Come around, come around

I cannot remember
The last time I saw you smile
And I won't wait forever
But I'll wait a while
And far be it from me
To test the strength of your will
But when you finally make it round
I hope I'll be here still

Come around, come around
It's only walking distance
Come around, come around
Take the path of least resistance
Come around, come around
Stop this heart from sinking
Come around, come around
Come around to my way of thinking

I'm not asking you
To come to your senses
And I'm not asking you
To come clean - that's not what I mean
And if you're on your high horse
I won't ask you to come down
All I want is you to come around
