The last sunrise the last goodbye  
Forever dark relentless night  
Sunlight kills the fledgling dead  
Taste the blood, taste the life,  
Taste the blood, taste the life,

Bring to me a thousand more  
Bring to me, bring to me  
Children, carnivores  
Bring to me

Taste the flesh of my first kill  
Drain the pool, feed the wolves  
Children, carnivores  
Bring to me a thousand more, a thousand more,  
a thousand more

Underneath a falling sky  
Adrenaline inspires me  
Taste the bitter chill of ice  
Living in your fear, inferior, inferior
