

Leather Jesus "Cold"

Midnight children
Chase the midnight wolves
Screams in the distance
Penetrate my skull

Cold so cold
Cold so cold
And the angel of death said
It freezes, it burns
Flesh crawls, shivering
Freezes it burns

Rats on the gravestones
Ferals in the church
Night breed scavengers
Dig the sacred earth

Life in the blue scale
Of the sub-zeroes
Ghosts in the slaughterhouse
Where the blood runs cold

Cold so cold
Freezes it burns
Cold so cold
Blood runs cold
