

Leather Jesus "Legion"

Visit "[Legion](#)" on MotoLyrics.com

I reach out for the sun
And there's no-one there to catch me
I call out your name
But you never ever came

Lay down, deep down, demon
Lay down, deep down, legion

The flowers in the field
Die quickly under ice
Screaming out my name
For endless paradise

I reach out for the stars
And there's no-one there to haunt me
I call out for you
But you never ever knew

I reach out for the moon
And now I'm getting closer
You called out for me
But I'll never ever leave

Lay down, deep down, for we are...
Demon, legion, for we are....
