Out of control

You're gone now, I feel fine
Seventeen months - sure I feel fine
What about you? I bet you been crying
I bet you been going around town lying

I'm driving fast
I feel so fine
I've got Prince singing Hot Thing to me
I know every line

So I pulled up to the red light
Sitting there in my car
I looked up to my right
And there you are

Sat there with some new girl
What is this?
Don't panic, panic
Mutya, don't drive erratic, hey!

That's who has replaced me
What a diss
Don't panic, panic
Don't act too manic, manic

It's a sure fire way to ruin my day
Just as soon as I'm on top of my life
There you are again, yeah
But don't react now, you can't go back now
Don't panic, panic
Mutya, just look ahead now

Out of control

Let's cut to it
My girl for lunch
I was feeling on top of the world

And I just got a hunch

She was sat behind my back
Didn't need to turn round
I felt sick of the thought
You'r laughing loud

Sat there with some new girl
What is this?
Don't panic, panic
Mutya, don't drive erratic, hey!

That's who has replaced me
What a diss
Don't panic, panic
Don't act too manic, manic

It's a sure fire way to ruin my day
Just as soon as I'm on top of my life
There you are again
But don't react now, you can't go back now (No, no, no)
Don't panic, panic
Mutya, just look ahead now

Mmm

It's a sure fire way to ruin my day
Just as soon as I'm on top of my life
There you are again
But don't react now, you can't go back now
Don't panic, panic
Mutya, just look ahead now
