Twinkle twinkle little star
I know who and what you are
Up above the world so high
Like a diamond in the sky

One starless night
A night in June
I saw a star, a single star
Beside the moon

Suddenly I knew
It was meant to be
That shining star
Was there for me

Oh how she shines
Shines on and on
As I will shine
For those of mine
When I am gone

We will all be stars
Someday, you and I
Will spread our wings
And light the sky

(Someday I'll wish upon a star
And wake up where the clouds are far behind me
Where troubles melt like lemon drops
A way above the chimney tops
That's where you'll find me)

Twinkle twinkle little star
I know who and what you are
Up above the world so high
Like a diamond in the sky

(Somewhere over the rainbow
Blue birds fly
Birds fly over the rainbow
Why then, oh why can't I)

Oh how she shines
Shines on and on
As I will shine for those of mine
When I am gone
We will all be stars
Someday, you and I
Will spread our wings
And light the sky

(If happy little blue birds fly
Beyond the rainbow
Why, oh why can't I)

Up above the world so high
Like a diamond, like a diamond,
Like a diamond
In the sky
