

Loveless "All The Same"

Visit "[All The Same](#)" on MotoLyrics.com

you should know by now - how I feel
you should know by now
can't you feel it
it's only gonna hurt

it's all the same - you're leaving me again
always the same - left me in those hellbent flames
the same old game - some things never change
it's all the same - you're leaving me again
so spare me those smiles
and spare me those tears
i'm so tired
of all these wasted years

it's all the same - you're leaving me again
always the same - left me in those hellbent flames
the same old game - some things never change
it's all the same - you're leaving me again
