He was just 23  
When a tick bit him  
And his doctor slapped in his face  
My soon you are fine, free and go a way

And that was the start, of a change in his life:  
His friends having gone on their way,  
He left alone with pain and dept  
As a victim of lyme

Now he is, 43 he can't walk  
And trying to find  
What went wrong  
When he was, just 23

His life gone with years of pain  
He has no family and no friends  
And his doctor say  
Dear friend you are fine, maybe just insane

He was just 23  
When he couldn't sleep  
And his doctor slapped in his face  
My soon you are fine, free and go a way

Now he is, 43 he can't walk  
And trying to find  
What went wrong  
When he was, just 23

His life gone with years of pain  
He has no family and no friends  
And his doctor say  
Dear friend you are fine, maybe just insane
