I want to say, my thought,
just for today, I enjoy what I got,
I won't change , just hope for the best,
always stand , don't be better than the rest.

Come together shoulder to shoulder
To share the burden of a victim of lyme
We have the same story it's same for all
Some time somewhere we got a lyme
Some time somewhere we got a lyme

We have wall of hope
The Wall of people
For all sick people...
Their families and friends.

Our dreams have, not been cancelled,
But they just might be, delayed.
We've got each other, to lean on.
we have family and our friends.

Come together shoulder to shoulder
To share the burden of a victim of lyme
We have the same story it's same for all
Some time somewhere we got a lyme
Some time somewhere we got a lyme

We have wall of hope
The Wall of people
For all sick people...
Their families and friends. 2x

Come together shoulder to shoulder
To share the burden of a victim of lyme
We have the same story it's same for all
Some time somewhere we got a lyme
Some time somewhere we got a lyme
