To all the people underground  
Listening to the sound of the living people  
Walking up and down the graves  
Well one of them is mine  
I visited my fraulein  
She's only one step away

To all the people underground  
Listening to the sound of the living people  
Breathing the air today  
Well one of them is mine  
I visited my fraulein  
She's only one breath away

To all the people underground  
Listening to the sound of the living people  
Living their lives away  
Well one of them is mine  
I visited my fraulein  
She's only one life away

She's only one life away
