"Mercy"

On this cold November day
You will see me smilin'
Oh but it's been a while

Since I could laugh again
Talkin' with my friends
And now you'll hear me sayin'
Oh now that I'm ok

Give me time
To get you off my mind
'Cause I've got too much going on
And I'm getting tired of crying
If you find when you you think of me
That you keep your head down
Is it still too soon to see
I'm at your Mercy

And it's true oh now what they say
It gets better by the hour
Better by the day
I move on in my simple way
Getting stronger every hour
Stronger every day
