ALL

Â© Electric Babylon Music Author: M.M.

Stars shoot from the manifest mind; honeymoon on
high, the leverage
of the pushing root and the menu of the sky, tangled
like a dictionary
the poetry of machine, the night renders excuse for
what the meaning
has to mean, burning angels hit the ground in the
violence of the
flame, deathbed lyric in geometric tongue give the all
a name, the
horizon of the color takes a nickel from the way, the
grinding metal
gears of the clock behind the day, creation credits
violence; nebulas
nuptial grace, soul of sex and numbers filling up this
space, radiation
hunger the mass of silence thrives, the broken bones
of Eden when the
innocence arrives, diabolical molecules helix of
temptation, ipso facto
flesh; code of all sensation, images find shape in the
brain of the
manifest mind, except for the shadow build the light
left undefined.
Braced against the heartbeat bone real shape runs the
doubt, between
the is was and will in the ever kill without, organic
textures feed the
friction of the landscape void, flight eludes the wing
when the weather
is annoyed, oceans of extraneous essence crowd the
matters weave,
simulated anatomy with its process of to believe,
inanimate motives
address the protege of light, particle dreams are born
in the nucleus of
the night, transubstantiation the energy for the blood,
petal perfect
limbs belie the chaos of the bud, vision stalks the
mystery's map for

the matrix of the why, the void supporting vault for the
integrity of the
sky, art finds color in the wavering woe celebrating
gods and falls, lost
in deeper context calling the spectrum of the laws,
pregnant with the
truth she breeds the unborn meaning, and the cradle
of the grave is all
upon this weaning.
