DREAM OF SEVEN HORSES

Â© Electric Babylon Music Author: M.M.

In silhouette against the black curtain of stars, and a full moon that

hangs like the history of dreams, and they are beautiful creatures with

no trace of fear in the eye, I cannot comprehend my perspective it's

like emotional mathematics, I see feel and hear them from every

direction at once, loosely gathered but tightly drawn in some

synchronized prayer, muscles taut with purpose and agenda, they

seem to be waiting but I'm an acolyte and know not the sign.

Steam from the nostrils; the pace of a lifetime, manes suspended like

the locks of an angel, no sense of urgency yet emanate danger beyond

horizon, am I the rider or just the witness of the going, and they take

on the wonder and capacity of the night time sky, I feel immensely

inferior and yet they look to me, is it symbol; allegory or is this just

another life mocking dream, or maybe they want to lead me to the

dream waking dawn.

Dream of seven horses, and they are swallowing the night.

So peaceful as the start to slowly move across the haunted landscape,

and I move with them; some unseen force propelled, weightless and

suffering unknown I am the eye of time, lost in the fluidity of their

intrinsic motion the meaning is bated along, and I know everything I

see everything yet there is only static motion, no destination is implied

no direction is emptied, suddenly at full gallop they

make the light
catch up, and I am waken and left with only wonder and
decay.
