EVE 6

Â© Electric Babylon Music Author: M.M.

She'll split you like the unknown atom, and leave you  
to build your own  
bomb, she'll make all your birth starved memories,  
available only in ROM,  
her map littered with ghost town Eden's, a perfect lover  
is conceived, by a  
love sick hologram whore, and a lie that is believed.  
Her eyes swimming into darkness, the horizon is her  
holy grail, and your  
just the playwrights understudy, your fiction just tells  
her tail. carried by  
the tease of the future, the needless now just the curse  
of her sigh, just  
the foreplay for the sex of tomorrows, the place she  
meets you when you  
die.
