Like a shadow searching for the light, she turned her
back darkness
radiant, formulas to twist and talk in the silence, hearts
beat like thunder
in this brainstorm of violence, like a warrior looking for
a fight, peel back
the feeling ego enemy, torture the medium to
broadcast your fears,
crooked laughter the source and veil of your tears.
Eyes cant see anything, eyes just hide the pain, eyes
cant see anything,
eyes just look in vain.
Like a feeling that's lost with the touch, matter over
mind flesh dream,
speech just goes thru the motion of sound, meaning is
lost as the motive
is found, like a moment that's lost in the rush, fury
and huger and
heaven's disguise, time is just another scavenging
tool, you sing for the
wise man and dance for the fool.
Eyes cant see anything, eyes just hide the ruse, Eyes
cant see anything,
eyes just beg for clues.
Like a thought that tries to frame the wind, mirror of
madness insatiable,
head like a sinner she acts like a saint, I'm color blind
and she says she
can paint, like falling asleep in church and waking up to
say amen, vanity
is your prayer received, she knows what she thinks she
says what she will,
she lives by emotion she don't know how to feel.
Eyes cant see anything, eyes just hide the soul, Eyes
cant see anything,
eyes are like a big black hole.
