LAST NIGHT AND FOREVER

Â© Electric Babylon Music Author: M.M.

When Iâ'm deep inside your gravity I can forget it all,
when Iâ'm falling
into your paradise I know Iâ'll never fall, I didnâ't know
I could love so
much itâ's like time, I didnâ't know I could live with
such reason and
make it rhyme.
Last night was wonderful, I could die now and not mind
much, because
I know, you could raise me from the grave with your
touch, you have
before.
If forever has any meaning this must be it, and Iâ'll
make it thru
shadows geometry if I just donâ't quit, and I learn to
take the world like
any other grain of sand, and in the peace of your
breathing breast I
finally understand.
Last night was wonderful, I could die now and not mind
much, because
I know, you could raise me from the grave with your
touch, you have
before.
Kiss me like a thousand stars, make a miracle of trite,
take the tribute
of my tongue and hands, make a shadow of the night.
Though the morning comes like a hammer I spend the
days, waiting
for the night to come so I can deal your praise, you are
the heartbeat of
my soul and the goddess of my destiny, I owe you all
of my desire
because you keep the faith inside of me.
Last night was wonderful, I could die now and not mind
much, because
I know, you could raise me from the grave with your
touch, you have
before.
