The stare of the moon, and the tongue of the night,  
delivered in  
darkness, kissed by starlight, houses in heaven, and  
angels to spare, I can  
sense her beauty, I know she'll be there.  
Sorrow is my tender heart, she is the teeth of the night,  
in every shadows  
desire, she is the kiss of the light.  
The movement of earth, the stillness of soul, beyond  
all that matters, the  
struggle for control. eyes of description, night for the  
scene, of all you  
cant see, she is the queen.  
Sorrow is my tender heart, she is the teeth of the night,  
in every shadows  
desire, she is the kiss of the light.  
A symphony of moods, in the music of her mind, in the  
storm of her  
passion, a rain sculpture divine, forms in the river, are  
fish in my tears,  
she walks in between, the seconds of years.  
Sorrow is my tender heart, she is the teeth of the night,  
in every shadows  
desire, she is the kiss of the light.  
Moving with her mystery, like the rain inside the cloud,  
her future is my  
history, time flows backwards for her child, the blood  
inside my brain, is  
the color from her lips, we must forgive the rain, when  
her light is in  
eclipse, angels cannot reach her, nothing flies that  
high, genius could not  
teach her, or paint her living sky, it will all be over soon,  
it can only end  
in light, the stare of the moon, and the tongue of the  
night.
