PARTICLES OF LIGHT

Â© Electric Babylon Music Author: M.M.

In an atmosphere of silence a new heaven is framed, in
the friction and

function a world is tamed, almost endless rations of
time and tides,

still born fortunes and death bed brides, I end I begin;
touch of the

weightless will, informed by the senseless moans of
the ghost of the

kill, meaning; just the luck of the dictionary's draw,
stuck upon the

point of the witless all.

In a wordless waiting of a timeless wait, a dead donor
is borne from

memory's gate, the negative still is unbelievable blue,
this ancient

rhythm's rust feels nubile new, any wisdom that plots
the heresy of

instinct's grace, is the hideous coil of matter behind
the face, these

worlds are made from the crumbs of god's dreams,
fleshless geometry

of shadows and themes.

Dependent on the atomic mercy of an untamed sun, a
man is a debt to

mankind till his dire days are done, all his motion
synched to the static

point of soul, all his empty places lost in the context of
control, the

vicious pull of gravity bends the plot of the scheme, till
the dreamer

becomes the only victim in the dream, all sugared
shadows and gray

area graveyards, his life a traded token down at the
slave yards.

Solid body of his weakness displayed in muscle tone,
the sense of

subject tied object in a shadow bone, consensual
forgiveness in the

kiss of this heat devoured, in this exchange of
emptiness the medium

is empowered, the dead loneliness of particles
unmatched of direction,
can only cult and clan for the chemicals of connection,
a starving moon
in agenda of darkness waits divine, for language of
the light the
substance of the sign.
