THE NEXT BIG THING

Â© Electric Babylon Music Author: M.M.

Wake up you don't want to be late for your dreaming
lessons, he shook
off the covers; just a boy and his obsessions, learning
the science of
sabotaging art, a dream so big it'll fit into a package
for sale in k-mart,
he'll be the spiritual ecstasy for all true believers, a
new point of reference
for the great deceivers, and what will happen to this kid
who can't wait to
grow up, the next big thing is just waiting for him to
show up.
He would look in the mirror and pose for the cameras
critique, he
supposed this common calling is what made him
unique, delicately poised
on the cutting edge of conventionality, he says this
untranslatable pout
will be my specialty, there will never be a place that I
don't look right at
home, with a drink a moon and a comb, he wants it to
be truth so bad
that he lip syncs the lie, the animal just knows how;
cannot pick up the
scent of why.
We often can't see the light for the light bulb and we
don't trust the sun,
he excepted his place with the grace of the chosen
one, didn't realize it
was just a line in his story, he thought it was the closing
chapter in a
book of glory, it's the psyche of the killer who feels
sorry for his prey, he
feels the pain of the bullet but pulls the trigger anyway,
and we all know
what happened to that kid who took to the wing, he's
crushed in the dirt
under the foot of the next big thing.
