Cristalena yea she's so cool
Cristalena she's out of control
Half the time she don't know where she's at
Cristalena don't know much about that

But you know and i know Cristalena
But you know and i know when i've seen her
But you know and i know Cristalena
But you know and i know when i've seen her

Cristalena she's in her own world
She's always happy as a little girl
Cristaleana's nice unless she's annoyed
Cristaleana happens to the boys-but not me

And i know Cristalena
But you know and i know when i've seen her
But you know and i know Cristalena
But you know and i know when i've seen her

Cristalena where'd you go
Do you even know where you live
Cristalena won't you stay
Don't go away won't you be my friend

But you know and i know Cristalena
But you know and i know when i've seen her
But you know and i know Cristalena
But you know and know when i've seen her

But you know and i know Cristalena
But you know and i know when i've seen her
But you know and i know Cristalena
But you know and know when i've seen her
