it seems like every time i get something going
it falls apart right in my hands
it seems like evertime i get it figured out and i have no
doubt
thats when im furthest from the truth
my world is breaking down around me
i see my destroyed world in from of me
any and everything i trusted
i weep for my world disgusted
i always learn the hard way, there aint no easy way to
learn
thats what i've learned
was i tought the right things in the right way?
i dont know and thats all i know
