Four more years ain't right for me  
I don't think so  
Won't let them teach me how to be  
A money tree

That's what you are, that's all you'll ever be  
(Never want to be your money tree)  
A money tree  
(Never want to be your money tree)

They've got you planted in the ground  
You don't know it  
They make you put your money down  
And they take it

That's what you are, that's all you'll ever be  
(Never want to be your money tree)  
A money tree  
(Never want to be your money tree)

Never want to be your money tree  
Never want to be your money tree  
Never want to be your money tree  
Never want to be your money tree

That's what you are, that's all you'll ever be  
(Never want to be your money tree)  
A money tree  
(Never want to be your money tree)

Money tree  
(Never want to be your money tree)  
A money tree  
(Never want to be your money tree)
