When I meet a special girl
She always lives somewhere else in the world
I don't want to call her on the phone
I wanna talk to her when I'm at home

Move to bremerton - we'll hang out
Move to bremerton - cause you wanna
Move to bremerton - will you be mine?
(move to bremerton til' the end of time)

I'll change the street signs you drive down
So you end up in my town
I'll re-draw the maps all one by one
So they all lead to bremerton

Drop out of school and run away
Quit your job, you got a place to stay
Pack your bags and hitch a ride
Bremerton's a good place to reside

If you owned a brain and use it too
You gotta know that I'd have a crush on you
I'm a sucker for a level headed girl with a pretty smile
She gotz to have ideas, yeah, and she gotz to have
style
