There's a fire burning deep inside my heart  
I wanna tell you all about it  
I don't know where to start

Time is everything along with reason  
Mood is everything along with time and season  
Time is everything along with reason  
Mood is everything along with time and season

Fire's burning deep inside my soul  
Burning at the hate  
And burning at the hole  
Time is everything along with reason  
Mood is everything along with time and season  
Time is everything along with reason  
Mood is everything along with time and season
