I don't want to
Let my life fly by
Do you ever stop
Stop to wonder why?

And time flies by when everything is okay
It just turns out that life ain't that way
Big decisions overwhelm me and I know
Nothing's free

When I don't think of think about much
People die and we don't know why
I could use some understanding
Human contact, sign that contract

I don't want to
Let my life fly by
Did you ever stop to wonder why
Ever stop to wonder, wonder why?

And time stands still when no one understands you
When you don't quite understand yourself
But just know this that God is faithful
Even if you don't have faith yourself

There's nothing quite like being sure of
What's inside your heart
It's mostly simple but not so easy
To know just where to start

I don't want to
Let my life fly by
Did you ever stop to wonder why
Ever stop to wonder, wonder why?

Today didn't have to be this way
Tomorrow is another day
Another chance to make things right
A chance to make sense of last night

Today didn't have to be this way
Tomorrow is another day

Another chance to make things right
A chance to fully live your life

Only if I don't want to
I don't want to
I don't want to
You don't want to

I don't want to
I don't want to
I don't want to
You don't want to

You don't want to
You don't want to
