The time is near when I dont need this phone
And we'll stay home alone and watch the twilight zone

We're still young and I know your afraid
But I don't regret all the plans we made

Drive-in movies always make you sleep
You end up coughing Z's in my backseat

I've seen it in your eyes a thousand times
I see you young again, I see the way you shine

You're not alone anymore
(You're not alone anymore)
Nothing will be like before
(Nothing will be like before)
[x2]
You're not alone anymore

Read your book while I make some hot tea
I love it when you fall asleep on me

I'm still me and I know you're still you

Together we're in shock, together this is new

You're not alone anymore
(You're not alone anymore)
Nothing will be like before
(Nothing will be like before)
[x2]

Sometimes I don't understand how you feel
But surely my love for you is real
You and your waiting, I won't die in vein
Cause nothing will ever be the same

Nothing will ever be the same
The same

You're not alone anymore
(You're not alone anymore)

Nothing will be like before
(Nothing will be like before)
[x4]

You're not alone anymore
You're not alone anymore
