Verse 1

I never did drink like you
But I held back your hair like a girlfriend would do
I told you how much I cared
you turned away with a laugh and a stare
Poetry crowded your face
froze as a smile skidded back into place

Chorus

Now lying & leaving and driving are leaking
out all seven holes in our heads.
We use every one to make everyone feel like
their feelings are only pretend.
A lazy, bitter end

Verse 2

Heavenly fallings from grace
You never knew your dad and I'm sorry for that
Love it or leave it with me
I'll drive it away in my car from the sea

Chorus

Now lying & leaving and driving are leaking
out all seven holes in our heads
We use every one to make everyone feel like
their feelings are only pretend
A lazy, bitter end

I brought you home too late
Stayed in the car while you walked to the door
