What do you feel? That's you're special?
But girl's just tryina make her money
It can be so thirsty when it comes to women
And I will explain if you want a minute
Then you can get to business

But you ain't getting no lecture interest

Up and down that pole, asking where them dollars at
Bending like a pretzel, take her in a Cadillac
She beautiful from head to toe, she putting on a show
I sling, she by the door
When she drop it to the floor, money all over the place
She don't like a drizzle, she prefer hurricanes
If you didn't know, I bet you now you know
That money maker, bend over, touch her toes

She been chasing dollar, chasing dollars
Chasing dollars, chasing dollars
Chasing dollars, chasing dollars
Chasing dollars, chasing

Oh, bent down that pole
She been chasing dollar, chasing dollars
Chasing dollars, chasing dollars
Chasing dollars, chasing dollars
Chasing dollars, chasing dollars

Oh, bent down that pole
Chasing dollars

Chasing dollars, chasing dollars
Getting her cake on
Up and down the pole, out of control
To that drink's on
She got a tank on her ass and it's blowing up like it's
napalm
All night, all day, day long
She never home, yeah, she stay gone
Took her up her heels, nigga
She got too many bills, nigga

She only mess with purple label
Not that Tommy Hill figure
I can change her life, that's what they all say
Keep that barber shop quartet up in the hallway

Up and down that pole, asking where them dollars at
Bending like a pretzel, take her in a Cadillac
She beautiful from head to toe, she putting on a show
I sling, she by the door
When she drop it to the floor, money all over the place
She don't like a drizzle, she prefer hurricanes
If you didn't know, I bet you now you know
That money maker, bend over, touch her toes

She been chasing dollar, chasing dollars
Chasing dollars, chasing dollars
Chasing dollars, chasing dollars
Chasing dollars, chasing

Oh, bent down that pole
She been chasing dollar, chasing dollars
Chasing dollars, chasing dollars
Chasing dollars, chasing dollars
Chasing dollars, chasing dollars

Oh, bent down that pole
Chasing dollars

Chasing dollars
Chasing dollars, chasing dollars
Chasing dollars, chasing dollars
Chasing dollars

Oh, bent down that pole
Chasing dollars, chasing dollars
