Talk is cheap cause
They say it don't pay
to be loved that way
I am hurt now
but I'll be ok
I know I will

Push my buttons
They always work
And you know where to
touch where it hurts

Cause you can't love me the way I love you
No you can't love me the way I love you

Actions speak loud
Louder than words
But I can't see you
And I can't hear you tell me what do I deserve

Cause you can't love me the way I love you
No you can't love me the way I love you

Get what you want
At my expense, why I'm still here
it makes no sense
Sacrifices
Guilty Vices
I can't live this way

You can't love me the way I love you
No you can't love me the way I love you
