you know that i just can't resist the way you breathe
down every inch
of my body we coexisted
well that was then.
i never been so wrapped up in a love like that, it
changed my life with every step
im never getting over it,
i haven't gotten past one bit.
Becuase i don't know me anymore, cuz i don't know me
anymore.

i lost you once before, i won't lose again
i lost you once before
i never thought a pain inflicted love would take i'ts toll
on me
but you and me coexisted
but now it's too far to fix it

cuz i don't know me anymore
cux i don't know me anymore
cuz i don't know me anymore
cuz i don't know me anymore

i lost you once before
i won't lose again
i lost you once before

too many years i gave my best
a lost once i won't do it again
too many years i gave my best never agian

cuz i don't know me anymore
cuz i don't know me anymore
cuz i don't know me anymore
cuz i odn't know me
