When I cant find my way out alone
It;s you that I turn to
When everything seems to be gone
Wt's you that I turn to

When nobody wants to know
Its you I can lean on
I know I'm not always so strong
It's you I can lean on

When times get hard
She brings me love
Shes everything to me
When times get rough
She holds me up
Like nobody else can

When all il know gets lost
It's you I can run to
When it feels like I'm so far from home
It's you I that I run to

When times get hard
She brings me love
She's everything to me
When times get rough
She holds me up
Like nobody else can

When I cant find my way out alone
It's you that I turn to
When everything seems to be gone
It's you that I turn to
