she looked like an angel
'cause she hides her defaults
so please whe you think you love her
just turn and come back !

(chorus):

one day god decided to punish her
to send her somewhere
without shopping center
she tought she was in Hell
but she was lost somewhere in the past !

she had a big dream
be like her idol
not to sell ice cream
bitching,
fucking,
shopping,
that's all she's doing !

(chorus):

But one day god decided to punish her
to send her somewhere
without shopping center
she tought she was in Hell
but she was lost somewhere in the past !

(bridge):

we did never see her again
God just rid us of this pain
she's still lost somewhere in the past
