"From Dying To Death"

Visit "[From Dying To Death](#)" on MotoLyrics.com

I can be a childist person
There's no care with other person
life is just the way to eternity
No one can ignore it

Something what I want to know
What we'll bring in dying days
to recover our fault
of U and memories

Just be your self
no sins inside
and then break out the walls
without deception

[bridge]
This is the day
to confess
our sins
and reach the skies

[reff]
Before this world the end
rise ur hand and pray together
for all mistake of ur life
and swear to comeback
we're all praying all the time
to represent our blood

last time
last chance
From dying to death
