"In My Car"

You were mean to me
And broke my heart
Now you've gone away
But we're apart
But I've got a special machine to take me
Where things turned out differently and you still care

I'm in my car
I'm in my car

I'm taking a ride to somewhere inside
Where you never left and I never cried
At the speed of light in my car.
Never comin' back to the world
I know where I belong
Where I'm your girl
So I've got fuzzy dice to bring me luck
Roll me to a better place where we can rock
