Billie you're a miracle and God knows I need one
Sing me something terrible
that even dawn may come You and me, we don't
believe in happy endings Hey,
Lady Day, can you save my life this time Can you cry so
beautifully you
make my troubles rhyme Hey, Lady Day, can you save
my life again My only
love has gone away Will you be my only friend Billie
you're a genius
enough to be a fool a fool to gamble everything and
never know the rules
Some of us can only live in songs of love and trouble
Some of us can only
live in bubbles...
