"No One Will Ever Love You"

If you don't mind why don't you mind
Where is your sense of indignation
You are too kind
Much too kind
Where is the madness that you promised me
Where is the dream for which I paid dearly
When things go wrong I sing along It
is the nature of the business
But you're not here to make my sad songs more
sincere
No one will ever love you honestly
No one will ever love you for your honesty
No one will ever love you honestly
No one will ever love you for your honesty
