"Not That Crazy Lyrics"

I built a ship with my own hands
To take us to the moon
I took a pen in my own hand
And wrote you a hundred tunes
Now I'm crazy for you but not that crazy.
I pretended you were Jesus
You were just dying to save me
I stood beneath your window with my ukelele
I made a yard a playground just in case we had a baby
Now I'm crazy for you but not that crazy.
I treated you like radium
I treated you like God
You were my glass menagerie
Did you not find that odd
I dwelt within and went without and broke my virgin
flesh
I performed acts of devotion as if you were Ganesh
But now I'm crazy for you but not that crazy
I'm crazy for you but not that crazy
