Xavier says "Ha ha ha,
we have nothing in common
See you round
Ta-ta
Slink back to your abominable lover, Zsa-Zsa
before I blow your cover,
tra-lala"

Zsa-Zsa's scene:
"Tacky queen,
you think there's no one but you
Get your crass little ass out
and don't make me cut you
With how much you
talk you'd think
that someone else was listening
Want a drink, Miss Thing?"
"Slow gin fizz," says Xavier
Zsa-Zsa orders, and drinks come
"Here it is, teddy bear"
"To your health, you ratfink scum,"
Xavier wheezes
I forgot:
Before each line he sneezes
quite a lot
