

My Bloody Valentine "Cupid Come"

Visit "[Cupid Come](#)" on MotoLyrics.com

Cupid come from coffee cup
Sickly heavy heart
Semi-set adrift in your
Lifted sugar eye

Come back down, I'm waiting here
And lick me with your fire
Connected silver tongues
Our lips beside

Every time I look at you
Pins me to the ground
Mirror me your memories please
And let me help you down

Swallow me into your bed
With glimpses of your thighs
Forget your vanity
Come cupid come

Cupid come from coffee cup
Sickly heavy heart
Semi-set adrift in your
Lifted sugar eye

Come back down, I'm waiting here
And lick me with your fire
Connected silver tongues
Our lips beside
